

# 25MW wind power generation per year

## 25MW wind power generation per year

### [Wind Power Statistics: Market Data Report 2026](#)

WORLDMETRICS REPORT 2026 Wind Power Statistics Wind power is rapidly growing worldwide, supplying over six percent of global electricity last year.

### Wind power generation, 2025

Wind power generation, 2025 Annual electricity generation from wind is measured in terawatt-hours (TWh) per year. This includes both onshore and offshore wind sources.

### GLOBAL WIND ENERGY COUNCIL

The Data and the Story - Wind in 2024 2024 marked yet another record year for wind energy with 117 GW of new installations worldwide. Looking beyond the marginal increase from last year, this report tells ...

### [WWEA Annual Report 2023: Record Year for Windpower](#)

Record Year for Windpower in 2023 Total capacity exceeds 1047 Gigawatt 116 Gigawatt added in 2023 equaling 12,5% growth China installed around 75 Gigawatt, two thirds of new capacity Wind power ...

### [Wind Energy Statistics By Industry Jobs And Technology \(2025\)](#)

This translates to a rather impressive increase of 157 terawatt-hours from the year 2009, typifying the growth in offshore wind power generation and its uptake within ten years.

### [WWEA Half-year Report 2025: Global Wind Power Growth ...](#)

The world's wind power sector recorded strong growth in the first half of 2025, with global installations rising by 64% compared to the same period of 2024. A total of 72,2 gigawatts (GW) of new ...

### [China's Debuts Record-Breaking 25-Megawatt Wind Turbines](#)

China's Dongfang Electric Corporation has rolled out a 26-megawatt (MW) offshore wind turbine, the world's largest in both capacity and size. Dongfang Electric Corp: The turbine boasts a blade wheel ...

## Global wind power market

Find up-to-date statistics and facts on the global wind power market.

### [How the wind blows: Numbers and data on renewables](#)

In the US less wind power capacity has been added each year compared to the years preceding the signing of the influential 2022 Inflation Reduction Act and the EU has also experienced a similar ...

### **25MW wind power generation per year**

The world's installed wind power capacity now meets around 10% of global electricity demand - another important milestone. More than ten countries now have a wind power share of more than 20%, led by Denmark, which ...
