

# Are the photovoltaic panels in stock still under warranty

## Overview

---

Learn how to check if your solar system is still under warranty, understand coverage types, spot claim signs, and protect your long-term solar investment. A standard solar panel warranty should come with at least 10 years of protection, though many premium options now offer 25 or even 30+ years of coverage. The great news is that most systems are protected for decades. However, a warranty is only helpful if you know how to access it. Here's what they cover: Under product warranty, the manufacturer supports solar panel owners against defects that include damaged panels and manufacturing errors. If something's not working.
