

# Asian Games Solar Power Generation

## Overview

---

For the first time in the history of the Asian Games, the Hangzhou Asian Games, which is scheduled to kick off in late September, will achieve the goal of fully using green electricity as the regular power supply for all competition venues. Hangzhou city, capital of east China's Zhejiang province, is gearing up to make the 19th Asian Games, which is slated to run from Sept. Determined to host a "Green, Smart, Economical and Ethical" Asian Games, Hangzhou has. From green sporting venues equipped with wind, photovoltaic and other clean energy sources to technological applications including driverless buses and digital torchbearers, green technology has become one of the brightest spots of the upcoming 19th Asian Games, to be held from Saturday to October. (ECNS) -- The 19th Asian Games to be held in Hangzhou, Zhejiang Province has taken a resolute stand in its commitment to green and sustainable practices in terms of venue construction, energy supply and event operations, among others. But this year, there is another reason to be excited. The organizers have taken an extraordinary step towards. In a compelling demonstration of its resolute green and low-carbon drive, China will power the upcoming Hangzhou Asian Games with renewable sources of energy.
