Overview

Designed to protect and expand with your growing energy storage needs. IP rated for outdoor environments our Slimline cabinets focus on maintaining a compact footprint in a professional yet accessible manner. All cabinets come pre-wired ready for easy installation on site. Our smallest Rack in. Sale! . The only battery charging cabinet that's designed and built in Australia Shielding your business from the dangers of lithium-ion battery fires, our double-walled sheet steel cabinet with 40mm thermal air barrier offers a smart fire containment system to slow the spread of a battery fire. It monitors key parameters like voltage, current, and temperature to prevent issues before they arise. Much like how a surge protector shields your home electronics, a BMS safeguards your battery from potential. Investing in a Battery Energy Storage System (BESS) can lead to significant savings by reducing reliance on grid electricity, especially during peak demand periods when energy costs are highest.
