

# Australian power generation container BESS

## Overview

---

The Bennetts Creek BESS will be built next to the Morwell Terminal Station in Victoria. It will provide key ancillary services, including frequency regulation, to strengthen grid stability and support Australia's energy transition. Australia's clean energy transition has reached an important milestone. Five ARENA-funded large-scale battery storage system (BESS) projects, equipped with grid-forming (GFM) inverters, are now connected to the National Energy Market (NEM), with three more expected online within the next year. 17 December, 2024, Sydney, Australia — Hithium, a leading global provider.
