

Austria Fusion Energy Storage Project

Overview

NGEN commissioned Austria's largest battery energy storage system (BESS). It installed it in record time – just seven months. Located in Fürstenfeld, in the country's southeast, the facility has 24 MWh in capacity and a maximum output of 12 MW. 6MWh standalone battery storage project in Austria, the largest in the country, it claimed. The Slovenia-headquartered firm has installed the project in Ardnoldstein, which is now grid-connected and participating in the electricity market. The storage facility featuring six Megapack 2XL systems from Tesla was built over a seven-month period in the vicinity of a wood gas generator and a solar farm. Slovenian company NGEN has switched on what it claims to be. Slovenian Company NGEN Launches Austria's Largest Energy Storage Facility Slovenian company NGEN, specializing in energy storage systems, has launched Austria's largest energy storage facility to date, with a capacity of 24 MWh.

Austria Fusion Energy Storage Project

['Largest' battery storage project in Austria complete](#)

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage into regional ...

[NGEN commissions Austria's largest battery storage system](#)

Located in Fürstenfeld, in the country's southeast, the facility has 24 MWh in capacity and a maximum output of 12 MW. The successful endeavor is part of the company's strategy to ...

[NGEN Launches the Largest Energy Storage Facility in Austria](#)

The energy storage facility, composed of six Tesla Megapack 2XL modules, has been integrated with the local power grid and serves a strategic role in balancing the supply and demand ...

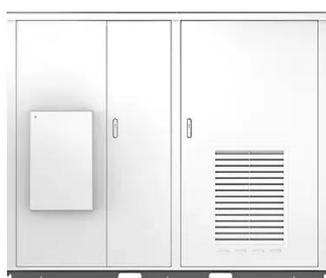

[Austria commissions its largest battery storage facility](#)
