

Battery energy storage solution in Estonia

Overview

The largest battery park in continental Europe was opened in Kiisa, Harju County, on Tuesday, capable of serving 90,000 households. Developers say it will bring greater energy security in the wake of decoupling from the Russian BRELL grid last year, and connection to the. The 100 MW/200 MWh battery energy storage project in Kiisa began operation on February 3 as scheduled – just two weeks after a testing fault at the facility caused the most significant disturbance to the regional power grid since Estonia's desynchronization from the Russian electricity system. Baltic Storage Platform has inaugurated the 200MWh Hertz 1 battery energy storage system in Kiisa, developed through a joint venture between Evecon, Corsica Sole and Mirova. This news is reported by ESS News. The JV between Estonian energy company Evecon, French solar PV developer Corsica Sole, and asset manager Mirova will develop the 2-hour duration systems, with.
