

Brussels Hotel Solar-Powered Container Grid-Connected Type

Overview

The Intech Energy Container — or ECON — is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container. Ideal for autonomous energy supply wherever grid access is unavailable or undesired. Are PV systems a challenge to existing. Would you like to generate clean electricity flexibly and efficiently and earn money at the same time?

With Solarfold, you produce energy where it is needed and where it pays off. The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp. Solar energy containers encapsulate cutting-edge technology designed to capture and convert sunlight into usable electricity, particularly in remote or off-grid locations.
