

# Can damaged photovoltaic solar panels be repaired

## Overview

---

Minor damage to your PVs can be repaired, and that panel can go on to be used for the rest of its expected lifespan. However, if panels or glass are broken, you are better off replacing them. While new glass can be applied, replacing them with new modules is cheaper in the long. There are a few ways to detect damage to your solar panels. Your power inverter may also produce an error message if it's designed to do so. But maybe you're. If your solar panel is damaged, it is important to have it repaired or replaced as soon as possible to prevent further damage to your property. The most common type of damage to solar cells is called “cellular degradation.
