# Civilization Restart Lockers can be broken

Overview

But here's the brutal truth: any locker can be broken if you don't understand the game's destruction mechanics. Recent data shows 68% of players lose their stored items within 72 hours of creating a new base. Why does this keep happening?

 Wait, no – those steel numbers might. What options get rerolled and what are fixed when you first start?

 If I've selected random everything (map, leaders, city states, literally everything on random) do these all get rerolled or are they basically now 'fixed' and the game just rerolls a map seed using the settings it hit when you first. You've spent hours gathering resources, building your base, and securing loot in Civilization Restart. Before anything else, try those steps first. The following are. If I force shutdown the game through Task Manager and start again it happens again regardless if I reload the most recent auto-save or an early one. Long time Civ 6 players will remember. Whether you're a Civ veteran or totally new to 4X games, there are plenty of new systems to learn in Civilization 7. At the very start of the game, once you've got your. Our words are backed with NUCLEAR WEAPONS! There is an extremely prevalent crashing issue that Civ VI has which renders this game unplayable for anyone who encounters it - the game will crash between turns after clicking the next turn button, usually from around turn ~50-100 onwards.
