

Container generator set cost list

Overview

Entry-level units suitable for small commercial applications typically range from \$50,000 to \$150,000, while large industrial systems can exceed \$500,000 depending on specifications and customization requirements. SEA BOX's selection of generator sets can be connected to one or several refrigerated containers to provide reliable power with the need to connect to a local power source. The larger footprint of these units allows for more versatility from a manufacturing specification standpoint — we can easily equip your gen set with greater levels of sound. Modern containerized generator set units typically feature power outputs ranging from 100kW to 2000kW, accommodating diverse operational requirements across multiple industries. The heart of these systems lies in robust diesel engines engineered for continuous duty cycles, often incorporating. Here at Alconet, you can buy a genset container both new and used. Take a look at our current offer down below, or request a quote directly to receive a price inquiry. No matter your region's emission standards, we have the PowerLINE Generator Set to meet your compliance needs.
