

Croatia cabinet solar container energy storage system manufacturer

Overview

In Croatia, several companies are involved in photovoltaic energy storage: IE Energy is developing Eastern Europe's largest energy storage project, with a 50 MW system that could be expanded to 110 MW by 2024, supported by €19.8 million in state. The company specializes in solar energy production and offers solutions that enable customers to harness on-site solar energy, which can significantly reduce electricity costs. Their expertise also extends to battery systems, highlighting their role in energy storage within the renewable energy. This article examines ATESS' pivotal role in transforming Croatia's industrial sector through advanced energy storage solutions, highlighting key projects across various factories and aligning them with Croatia's energy transition strategies. We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM. Pre-fabricated containerized solutions now account for approximately 35% of all new utility-scale storage deployments worldwide.
