

Diameter adjustable solar mount

Overview

Easy to adjust the angle among 0-15-30-45-60 degree according to personal requirements, help solar panel get max sunshine exposure and generate more power. Designed for Pole diameter from 2. Can these be mounted on the side of a house?

Yes, it can be. This single solar panel pole bracket installs quickly and supports 1 panel. Compatible with panels sizes up to 170 watts. The angle adjusts easily allowing optimal sunlight according to the season. Built with heavy duty aluminum brackets, stainless steel hardware and backed by a 10 year warranty. Seasonal Adjustability Maximizes ROI: Pole-mounted solar panels with seasonal tilt adjustment can increase energy production by 10-25% annually compared to fixed systems, making the higher upfront investment worthwhile for most applications. Its galvanized steel frame and adjustable hole positions made it easy to set at the perfect angle, and the sturdy support rod prevented sagging—something other mounts failed to do.
