

Does the installation of a communication base station on the roof require the owner's consent

Overview

Under the OTARD rule, an owner or a tenant has the right to install an antenna on property that they own or over which they have exclusive use or control. This includes single family homes, condominiums, cooperatives, townhomes and manufactured homes. As a property owner approached by telecommunications companies, it's essential to know your rights. Understanding regulations and knowing what to expect can help you navigate this situation effectively. Contracts and Negotiations If a company. Every municipality is responsible for adopting its own set of laws governing the placement, design standards, and safety features of wireless telecommunications equipment installed and/or operated by companies like Verizon, AT&T, T-Mobile, Dish, and Crown Castle. Strong local cell tower laws are. FCC rules for over-the-air reception devices (OTARD) protect the rights of property owners or tenants to install, maintain or use an antenna to receive video programming from direct broadcast satellites, broadband radio services, and television broadcast stations in areas within the owner's or. However, there are a couple of regulatory requirements that building owners with cell site leases should be aware of and concerned with. First, many building owners have expressed fear or uncertainty regarding the health concerns related to rf exposure from antennas on rooftop sites. It should be. Homeowners' associations (HOAs) and condominium associations frequently impose private land use restrictions, known as covenants, conditions, and restrictions (CC&Rs), that regulate the installation of external antennas.
