

Does the outdoor power supply need to be charged in advance

Overview

When you unbox a brand-new outdoor power station, it's tempting to start using it immediately. But here's the catch: most lithium-ion batteries arrive partially charged, not at full capacity. Manufacturers like EK SOLAR recommend an initial "activation charge" to optimize. Discover why proper initial charging matters for your outdoor power station's performance and longevity. Learn industry-proven tips and avoid common mistakes. The outdoor power supply is equivalent to a small portable charging station.

Does the outdoor power supply need to be charged in advance
