

Earthquake-resistant inverter cabinet for campsites

Overview

The FlexTower combines everything you need in one sleek enclosure — including a battery, hybrid inverter, charge controller, LCD interface, and remote monitoring app. It supports multiple applications like off-grid power, backup, zero export, TOU optimization, demand response, and VPP. A compact, pre-wired enclosure that houses both battery and inverter — simplifying installation and saving space for residential and light commercial projects. Built on the foundation of the DuraRack battery cabinet, the FlexTower combines. Let's compare the best camping inverters on the market to help you make a better decision on how to power your next outdoor adventure. Camping is great, isn't it?

You might be a person who likes down-and-dirty camping in the rough, with just a backpack and an old sleeping bag. Engineered to accommodate EG4 hybrid inverters and EG4 AllWeather batteries, it offers a dependable solution for whole-home backup, off-grid living, and light commercial. The FlexTower is an all-in-one energy storage system. Features C4M anti-corrosion and IP54 protection, a split design compatible with lithium and lead-acid batteries, seamless BMS communication, optional air-cooled/liquid-cooled battery systems supporting up to 8 strings (0. Making wire management a breeze.
