

Electric vehicle range kathmandu

Overview

Hence, we've compiled a list of the top 15 electric cars in the country, each boasting the highest claimed range achievable on a single charge according to the official claims of their respective manufacturers. Sabin Kumar Chettri, a cab driver in Kathmandu, gave up his gasoline car in 2024 and switched to an electric vehicle (EV). Before the switch, he had used a car powered by an internal combustion engine (ICE) for about a decade, during which he faced steep maintenance bills, high vehicle taxes and. Kathmandu perhaps has more battery-powered commuter electric vehicles than any other urban centers in the world. Around 100,000 passengers benefit from the service provided by Safa Tempos on a daily basis. But it's also one of the fastest growing markets for EVs: Nepal's electric cars now outsell new fossil-fueled vehicles. In Nepal, that number was around 65%. This spike highlights the city's growing. Electric vehicles in Nepal now account for seven out of ten new car purchases, giving the mountainous nation one of the world's highest adoption rates, after Norway.
