

Energy saving championship scheme

Overview

The Energy Saving Championship Scheme 2022 is a significant initiative aimed at promoting low-carbon transformation in Hong Kong. By encouraging young people to unleash their creativity and imagination, the competition is helping to build a more sustainable future for the city. The Environment and Ecology Bureau (EEB) and the Electrical and Mechanical Services Department (EMSD) launched the Energy Saving and Decarbonisation for All 2024 Campaign today (June 26) at the EMSD Headquarters Building to encourage the community to save energy, reduce carbon emissions and. On 18 May, CUHK was crowned overall champion in the inaugural 'Energy Saving Championship Scheme' for its achievements in energy-saving in the past three years. Promoting such messages to the young people is essential to the.
