## Shanghai Fengxian

The project is part of China's efforts to expand its renewable energy capacity, particularly in offshore wind power. It aligns with national goals to reduce carbon emissions and increase the share of ...

### **China Wind Power Industry: Country's first national offshore wind power**

The offshore wind power base is located in east China's Fujian Province and consists of a land test center and a test wind farm. It will play a fundamental role in breaking through core ...

### [China's Fujian accelerates development of clean energy](#)

In recent years, Fujian has accelerated the development of clean energy, including wind and nuclear power, to promote the green and low-carbon development of the society.

### [World's Largest Offshore Wind Power Facility Starts Operating](#)

Located about 35 kilometers offshore from Pingtan of Fujian province, the wind farm consists of 11 offshore wind turbine units, including the world's largest 16-megawatt offshore wind turbine unit.

### [China's first national offshore wind power research and testing base](#)

The platform is the first domestic ground testing platform for wind turbines with independent intellectual property rights, internationally advanced technical standards, and ...

### **Yunnan Xishan Fengbaishan wind farm**

Yunnan Xishan Fengbaishan wind farm is an operating wind farm in Xishan District, Kunming, Yunnan, China.
