Fixed Data Center Racks for Border Posts

IWAP OPTOELECTRONICS - Professional Energy Solutions

Overview

When choosing server rack posts for your data center or network closet, prioritize compatibility with standard 19-inch racks, correct thread type (typically #10-32 or M6), and sufficient length to support deep equipment. The Vertiv Rack supports a wide variety of equipment including servers, storage, switches, routers, PDUs, UPSs, console port servers and KVM. With steel welded frames and high max weight load limits, our server racks are durable, secure, and make it easy to install equipment. This model includes angle brackets for bracing equipment within the rack. The Cruxial RS-4POSTRACK-42 is a 42u rack made from black steel with strong, "L" shaped M6 square hole rack rails. Their sturdy construction ensures reliable performance in. Belden offers a complete line of open 4-post racks and rack accessories, from single-rack applications (such as retail and telecom closets) to high-density, multi-rack patching and switching fields (in computer rooms, data centers and central offices). Our unique cable and connectivity expertise is. RackSolutions has been manufacturing high quality server racks and cabinets for over 20 years.
