

Have the prices of Tongwei photovoltaic panels dropped now

Overview

Tongwei, GCL Technology and Daqo New Energy all reported steep first-half 2025 losses on weak polysilicon prices, with rising n-type output and cost controls failing to offset margin pressure. 5% year on year. Two major photovoltaic companies vowed on Tuesday to cut production volume as the industry navigates through supply-demand imbalances and excess outdated capacity, leading to intense price-centered competition. Experts deem output management and technological innovation as crucial for companies to. (Yicai) Oct. 26 -- Shares of Tongwei and TCL Zhonghuan Renewable Energy Technology fell after the two global photovoltaic material titans announced double-digit slumps in revenue for the third quarter due to lower product prices. Tongwei [SHA: 600438] finished the today 5. Tongwei benefitted from the shortage in supplies in 2021 and 2022, but this has now led to excess capacity in the industry.

Have the prices of Tongwei photovoltaic panels dropped now

[Tongwei solar cells dropped by 20%!The reason behind it is](#)

Following the recent sharp price cuts of LONGi and Zhonghuan silicon wafers, on December 27, the latest solar cell prices announced by Tongwei also began to cut prices sharply. ...

[Tongwei Turned Lossmaking as Polysilicon and Solar Cell Prices Fell](#)

Tongwei positions itself as the global leader in polysilicon production, making about 27% of domestic supplies in 2023. Tongwei benefitted from the shortage in supplies in 2021 and 2022, but
