

# How to connect the circuit breaker of the battery cabinet

## Overview

---

Connect the battery cable accessory to one end of the battery port on the rear panel of the UPS and connect the other end to any battery port on the rear panel of the EBC. Make sure they are in parallel. Open the circuit breaker on each EBC. System drawings and schematics are reviewed and clearly understood. If there are any questions concerning this manual or any of the installation or maintenance procedures and/or maintenance should always be performed with heavily insulated tools. **IMPORTANT!** Non-certified technicians are prohibited from opening the chassis cover of the battery cabinet. Refer to ZincFive's BC Series UPS Battery Cabinet Service Manual for information related to servicing and. How do you put positive and negative wires in a circuit breaker?

Wiring needs to be set up so the positive wires go on one side (Top), and negative wires go on the other side (Bottom). The + does not mean put the positive wire here and - means put the negative wire here. Exercise extreme caution not to.

## How to connect the circuit breaker of the battery cabinet
