

Huawei sells photovoltaic energy storage in Japan

Overview

TOKYO -- Huawei Technologies will begin selling large-scale battery systems for renewable energy storage in Japan in March, Nikkei has learned, seeking to tap growing demand as the nation transitions away from fossil fuels. Huawei Digital Power showcased cutting-edge energy solutions at two prominent venues: the Japan International Battery Expo (Battery Japan) and the Japan International Photovoltaic Expo (PV EXPO). During the event, a wide range of digital power solutions was showcased, including PV and energy. This initiative incorporated self-consumption distributed PV and energy storage systems into the reconstruction of public housing and welfare facilities. Huawei, Keppel sign MoU on solar and battery storage for data.
