

# Hungarian phase change energy storage system supplier

## Overview

---

The supplier of the new equipment is Huawei Technologies and the main contractor is Forest-Vill, MET Group added. Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with total nominal power output of 40 MW and storage capacity of 80 MWh (2-hour cycle). It is the latest example in a series of. litating the smooth integration of high-capacity of variable renewable energy sources in the system. It also targets reducing Hungary's dependency on fossil fuel imports, notably natural gas from Russia, while accelerating the energy transition in line with the REPowerEU Plan and the Green Deal. Forest Vill Ltd. The milestone is. With the latest system coming online on 19 June, MET Group and Dunamenti Power Station are stepping up their support for Hungary's shift to cleaner energy. Europe sees rapid expansion of large-scale battery systems The current storage capacity of all BESS units on site with 40 MW/80 MWh (2-hour. Hungary's subsidy scheme for energy storage will drive huge growth in battery energy storage system (BESS) deployments over the next few years. Hungary has 40MWh of grid-scale BESS online today but that will jump 3,400% to around 1,300MWh over the next few years thanks to opex and capex support. In recent years, Hungary's energy environment has changed noticeably.

## Hungarian phase change energy storage system supplier

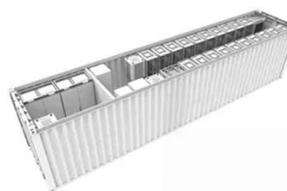

[Energy Storage Equipment, Energy storage solutions, Lithium battery](#)

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring ...
