

Install photovoltaic solar panels for free

Overview

Except for very rare cases, it's unlikely that you'll be able to install solar panels at no cost whatsoever or that the government is “giving them away. ”. The Department of Energy is aware of claims of offers for free solar panels or that solar companies must provide solar panels for free if requested. However, the federal government does not offer any programs for free home solar panel installations nor does the government require companies to grant. Companies that offer “free” solar panels are typically offering solar lease agreements, so you can reap the benefits of solar-powered electricity without dealing with the upkeep and maintenance of the panels. While this might sound enticing, there is a lot more to consider before signing a lease. Switch to solar with a system built for you.
