

Is installing photovoltaic solar panels a scam

Overview

A solar panel scam traps homeowners in long-term financial and legal headaches, often before they realize what has happened. As solar energy adoption grew, dishonest companies exploited incentives, tax credits, and financing programs. Demand for solar-powered home systems has increased rapidly in the last several years. Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. In fact, complaints involving solar panels continue rising. As solar grows in popularity, more scammers are targeting consumers.
