

Jiang District Solar Power Plant

Overview

Datang Changdu Jiangda Solar PV Park is a ground-mounted solar project. The project is expected to generate 40,000MWh electricity and supply enough clean energy to power 60,000 households. In terms of PV power generation, 2.48 × 10⁸ tce, had sufficiently high and stable solar radiation. This makes it an ideal site for massive renewable energy bases that transmit most of their power over long distances to China's densely populated eastern seaboard. Xinjiang, officially known as the Xinjiang Uygur Autonomous. On May 29, the Xinjiang Midong 3.5 GW Midong solar project in Urumqi, China's Xinjiang region. 5. Shanghai Electric Power Generation Group is the core industry sector of Shanghai Electric Group, specializes in power generation equipment manufacturing, power generation engineering and full life-cycle service.
