

# Long-lasting costa rican pv distribution for sports stadiums

## Overview

---

The project serves as a model for “green sports,” inspiring more stadiums worldwide to adopt solar technology—reflected in the global Top 50 solar-powered stadiums list. The Costa Rica Stadium project showcases the outstanding performance of the Sresky Atlas series in advancing green. In Costa Rica, a global pioneer in renewable energy, a modern stadium has achieved world-class green lighting for its perimeter and public areas by introducing Sresky Atlas integrated solar street lights. The project is unique for Central America: for the first. The Costa Rican Football Association (FCRF) has successfully completed its sustainable improvement project at its Sports Complex, turning it into Latin America's first green project supported by the FIFA Forward programme.
