

Longi New Energy solar inverter

Overview

Backed by advanced technologies, LONGi solar panels feature excellent power ratings and top conversion efficiencies, and can be used across all market segments. LONGi's field-proven bifacial modules deliver added performance benefits and long-term reliability. At the key node of intergenerational transition of global Photovoltaic (PV) technology, the back contact (BC) cell technology is leading the new-generation PV technology paradigm revolution, becoming the core engine to drive industry cost reduction and efficiency improvement and realize energy. Q: Can you get the solar panel customized for us ?

A: Of course, brand name, solar panel color, designed unique patterns available for customization. Q: What kind of service can you provide once we place the order?

A: After we received the order, we will arrange the production, our QC members. Design institutes/companies/individuals worldwide are invited to submit design proposals for solar power plants using LONGi's Hi-MO 9 modules. LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy. SOLAR STREET LIGHT WITH MONI. P-Type HPBC Monofacial Module 565-600 LR5. From rooftops to utility-scale plants, our solutions are designed to perform everywhere solar matters.
