

# Maldives station-type energy storage system supply

## Overview

---

The Government of Maldives has awarded a contract to a Chinese consortium to install 38 megawatts (MW) of battery energy storage systems (BESS) across 18 islands, in a bid to enhance renewable energy capacity and reduce dependence on fossil fuels. Image: wikimedia user Nevit Dilman. The Republic of Maldives has launched a tender process, seeking to procure. Bidders. The addendum forms part of the Bidding Document. The project includes design, supply, installation and commissioning of a total 40MWh BESS in two lots. Through professional design capabilities, strong technical support capabilities, and years of service experience, SINOSOAR has helped lots of islands in the Maldives establish mini-grid projects. Soneva Fushi has installed a 70kW solar photovoltaic (PV) power plant system that has achieved eight months of successful operation. It is the largest renewable energy plant currently.

## Maldives station-type energy storage system supply

### [Maldives portable energy storage power supply](#)

The portable energy storage all-in-one equipment can build a simple power supply system outdoors, and can be connected to solar panels, grids (or generators) and loads.
