

Manufacturer of 40-foot solar-powered containers for mining

Overview

Bit-RAM fashionably retrofits a 40-foot shipping container to help you create a highly productive, large-scale mining operation in small space. The MightyPOD sports a unique Bit-RAM signature look like all our mobile cryptocurrency mining containers. Picking the right solar parts and making the system the right size gives steady energy. It's perfect for corporations seeking to launch large crypto. Container Bundles combine transformers and mining equipment, putting you in control of the workload. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. Engineered for industrial resilience, this 40ft fold-out system offers 140kW solar power and 215kWh storage. Join us as a distributor! Sell locally — Contact us today! Submit. This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.
