

Mi Village Solar Power Generation

Overview

MIGreenPower is a simple and affordable program that puts more clean energy on the grid. When we work together, the impact we can make is significant. Please update to a modern browser such as Chrome, Firefox or Edge to experience all features Michigan. Subscribers receive credits on their. His reporting on clean energy and data centers has been cited in The New York Times, Wall Street Journal, and hundreds of other publications. R-STEP is administered with support from the Partnership Intermediary Agreement (PIA) that the U. It is also supported by the Michigan Department of Environment, Great Lakes, and Energy (EGLE). SEIA is actively monitoring a newly announced stakeholder process, MI Power Grid, a focused, multi-year stakeholder initiative supported by Governor Whitmer and the MPSC to maximize the benefits of the transition to clean, distributed energy resources for Michigan residents and businesses. In addition, as part of our environmental stewardship practices, many of our solar parks incorporate pollinator gardens. We plan to add 8,000 megawatts of competitively bid, utility-scale solar power by 2040 — when solar power will comprise more than half of our electric capacity.
