

Morocco 6 billion energy storage project

Overview

Morocco is set to make history as the host of Africa's first battery gigafactory — a \$5. Located in Kenitra, this facility will not only supply batteries for electric vehicles (EVs) and renewable energy storage but will also. The Gotion High-Tech Gigafactory in Morocco is a landmark project that will establish Africa's first electric vehicle (EV) battery production facility, positioning Morocco as a key player in the global clean energy supply chain. 6 billion investment from China. The facility, located in Kenitra, aims to produce 20 gigawatt-hours annually by 2026, with plans to expand to 100 GWh. This choice is part of a national strategy for equipping, testing, and industrializing energy storage. Globally, the battery market is experiencing. Chinese battery giant Gotion High-Tech will invest up to 1. Officially announced today, this “gigafactory,” the first of its kind in Morocco for electric vehicles, represents an initial investment of 1.

Morocco 6 billion energy storage project

[Morocco to Host Africa's First Battery Gigafactory in Kenitra](#)

China's Gotion High-Tech is investing \$5.6 billion in Africa's first battery gigafactory in Kenitra, Morocco. The 2026 startup will begin at 20 GWh annually, ramp to 100 GWh, create 10,000 ...
