

# New Energy and Energy Storage Conference

## Overview

---

The NEESSC 2026 aims to provide a platform for practicing engineers, academicians, and researchers engaged in New Energy and Energy Storage engineering related research to share their scientific research achievements and cutting-edge technologies, and to promote the industrialization. The NEESSC 2026 aims to provide a platform for practicing engineers, academicians, and researchers engaged in New Energy and Energy Storage engineering related research to share their scientific research achievements and cutting-edge technologies, and to promote the industrialization. The IEEE PES Electrical Energy Storage Applications and Technologies (EESAT 2027) conference will be held January 11 th -12 th, 2027 at the Sirata Beach Resort in St. This technical conference will be co-located with the IEEE Energy Storage and Stationary Battery (ESSB). Your Path to Energy Storage Excellence Starts in London The Energy Storage Summit is where decisions get made, ideas sharpen, alliances form, and the next phase of market design, financing models, and build-out strategy is forged. More than two thousand leaders from global power markets, defence. 2026 IEEE 6th New Energy and Energy Storage System Control Summit Forum (NEESSC 2026) will be held from 14 to 16 August 2026 in Hohhot, China. NEESSC 2026 is sponsored by Inner Mongolia University of Technology and IEEE Beijing Section, organized by College of Electric Power, Inner Mongolia. Energy Storage Conferences 2026 2027 2028 is for the researchers, scientists, scholars, engineers, academic, scientific and university practitioners to present research activities that might want to attend events, meetings, seminars, congresses, workshops, summit, and symposiums. The briefing was jointly organized by China Energy News, China.
