

# Non-standard solar panel manufacturers

## Overview

---

Welcome to the world's most advanced solar panel (solar module) product directory. Solar installers, system integrators, and sellers can use our advanced technical filters to find the exact PV panels that match their needs. Non-Chinese solar modules manufacturers, such as Waaree Energies and Vikram Solar are leading a charge against Chinese dominance. This is a list of notable photovoltaics (PV) companies. Grid-connected solar photovoltaics (PV) is the fastest growing energy technology in the world, growing from a cumulative installed capacity of 7.7 GW in 2007, to 320 GW in 2016. We have collated panel data from manufacturers from all around the world. With innovation-driven development as its most important strategy and core driving force, Trinasolar has put in place a comprehensive and leading science and innovation system. Collaborating long-term with over 30 leading universities and research institutes in more than 10 countries to advance. With no customization required, the standard range of DUSOL solar panels are produced using standard cells and uses an industrially accepted standard arrangement of the cells. We endeavour to supply high-efficiency solar cells, including the Topcon, HJT, BC, and P-type mono series. The solar cells range from 156.75 mm to 210 mm, and we also tailor-make non-standard solar.
