

# Outdoor power supply European standard

## Overview

---

On 13 October 2025 the European Commission adopted Regulation 2025/2052, introducing updated “ecodesign” standards for external power supplies (EPS), portable-battery chargers, wireless chargers / charging pads, and USB-Type-C cables. New ecodesign requirements apply as of 14th December 2028 for USB Type-C cables. External Power Supplies (EPS) are stand-alone devices used to convert AC voltage and supply electricity to, or charge built-in batteries of electronic and electric devices such as laptops, mobile phones, tablets. Summary: Understanding outdoor power supply specifications is critical for industries like renewable energy, construction, and emergency services. Learn about certification requirements, market trends, and practical selection tips in this comprehensive guide. But don't worry—we've broken down the key standards for Europe and North America to help you streamline compliance and expand your market reach. Let If you're in the outdoor.

## Outdoor power supply European standard
