

# Payment Method for 1MW Off-Grid Solar Containerized Oil Platform

## Overview

---

This report provides the latest, real-world evidence on the cost of large, long-duration utility-scale Battery Energy Storage System (BESS) projects. Offshore platforms, also known as offshore rigs or oil platforms, are large structures designed for the extraction and processing of oil, gas, and other natural resources from beneath the ocean. 5MW solar energy storage project in Chad) This scheme is applicable to the distribution system composed of photovoltaic, energy storage, power load and power grid (generator). Peak shaving and valley filling: by charging and storing energy at valley time and discharging energy at peak. Namkoo's containerized battery energy storage solution is a complete, self-contained battery solution for utility-scale energy storage. It puts batteries, A/C, UPS, inverter and auxiliary equipment in a single container or separated based upon site conditions.
