### SOLAR PANEL CADDY

The Solar Panel Caddy is a tool designed to assist with a safer and easier method to lift and carry modules around the job site and up ladders.

### GripClip(TM)

The vast majority of polymers aren't designed for PV and to withstand harsh UV for 25+ yrs (think PVC, etc...) However, there are advanced polymers that are specifically engineered to perform in these ...

### Solar Panel Caddy

The Solar Panel Caddy is designed to assist with the lifting and carrying of solar panels. The tool was created out of the frustrating daily grind of carrying solar panels around the job site.

### Module Lift: Premier Solar Panel Lifter

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.

### Solar Panels

A vacuum solar panel lifter allows the operator to pick up panels in no time, quickly lifting and moving them in place with a simple grip on the ergonomic handle.

[Steel Solar Panel Mid Clamp with Bolt, Cone Nut, and Spring for 1-5/8](#)

### Solar Panel Caddy

The spacer guarantees a secure, snug fit, providing the same reliable grip and safety features for a variety of panel sizes. The Solar Panel Caddy is an essential tool for anyone working with solar panels.

Our Adamax Solar Panel Mid Clamps provide a durable, easy-to-install solution for securing solar panels in residential, commercial, and off-grid applications. These solar panel clamps are designed for ...

### **Solar Panel Caddy**

The Panel Caddy Spacer is a simple, easy-to-use attachment that can be added and removed as needed. By adding this accessory one can securely grip solar panels between 32mm and 28mm thick.
