

# Photovoltaic panel production enterprise directory query

## Overview

---

A directory of all photovoltaic manufacturing companies and installers in the world - including solar panels, cells, production equipment and components. The United States Large-Scale Solar Photovoltaic Database (USPVDB) provides the locations and array boundaries of U. It includes corresponding PV facility information, including panel type, site type, and initial year of operation. It details their nameplate capacities, or the full amount of potential output at an existing facility, where known. This data is collected by Solar Power World editors and will be continually updated as facilities. Access our list of the most important **Photovoltaic panel manufacturers** as an Excel file.
