

Photovoltaic panels fell from the house

 **LFP 48V 100Ah**

Overview

If a solar panel falls from an upper floor, 1. notify the solar panel installation. Tree branches and other debris that fall from above can wreak havoc on solar panels for straightforward reasons; while solar panels are built tough, they're not indestructible. A falling branch can shatter the glass covering a solar panel and even damage the solar cells the glass was protecting. Solar panels are a long-term investment that provides clean and renewable energy for homes, businesses, and off-grid applications. However, like any technology, they are not immune to damage. document the incident thoroughly with photos and notes, 4. Are you doing a solar project?

Modernize can pair you with three to four pros in your area, so you can compare options and save time and money.
