

Photovoltaic portable inverter

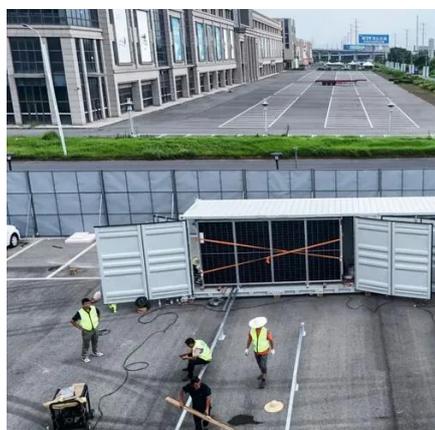

Overview

A: A portable solar inverter is an energy-efficient generator that gets its energy through sunlight from solar panels. Also, the inverter is portable — and light enough to carry without needing. Compared to smaller stations like the Explorer 300 or the ZeroKor 300W, the Jackery Explorer 1000 v2 offers more power, faster recharging, and an easy-to-use interface, making it ideal for camping, emergencies, or off-grid adventures. The perfect solution for lost AC chargers; use your car charger at home with the AC to DC converter. Lets you run any 12-Volt product with a 12-Volt. Check each product page for other buying options. Price and other details may vary based on product size and color. Made with chemicals safer for human health and the environment. Need help?

. That's what inverters are for—they change the direct current (DC) power from the panels into alternating current (AC) power you can use in your home. Here are the three most common types of photovoltaic inverters: String inverters: With one centralized inverter, this is the standard type.
