The image shows a collection of white, three-tiered solar inverters on wheels, arranged in a cluster. The inverters have digital displays and ventilation grilles. The background is a light green gradient.

Overview

A Solar Power Purchase Agreement (SPPA) is a financial arrangement in which a third-party developer owns, operates, and maintains the photovoltaic (PV) system, and a host customer agrees to site the system on its property and purchases the system's electric output from the solar. A Solar Power Purchase Agreement (SPPA) is a financial arrangement in which a third-party developer owns, operates, and maintains the photovoltaic (PV) system, and a host customer agrees to site the system on its property and purchases the system's electric output from the solar. A Solar Power Purchase Agreement (SPPA) is a financial arrangement in which a third-party developer owns, operates, and maintains the photovoltaic (PV) system, and a host customer agrees to site the system on its property and purchases the system's electric output from the solar services provider. Procuring a solar electric system is a process similar to purchasing a new HVAC system, roof, or comparable property investment. A project manager (PM) must understand high-level options and costs if they want to release a competitive bid and receive the best price offer. Once selected, the. This document has been published with the support of Andy Walker, Otto VanGeet, Tom Harris and Chandra Shah of the National Renewable Energy Laboratory (NREL). The enclosed technical template language is intended to provide only example language for agencies to consider in the process of assembling. A Solar Panel Purchase Contract is a legal agreement outlining the terms and conditions for the sale and purchase of solar panels between a buyer and a seller. This contract typically specifies details such as the type and quantity of solar panels, pricing, delivery schedules, payment terms, and. Contracts are the most common form of contract used to undertake construction works on utility-scale solar projects by the private sector.
