

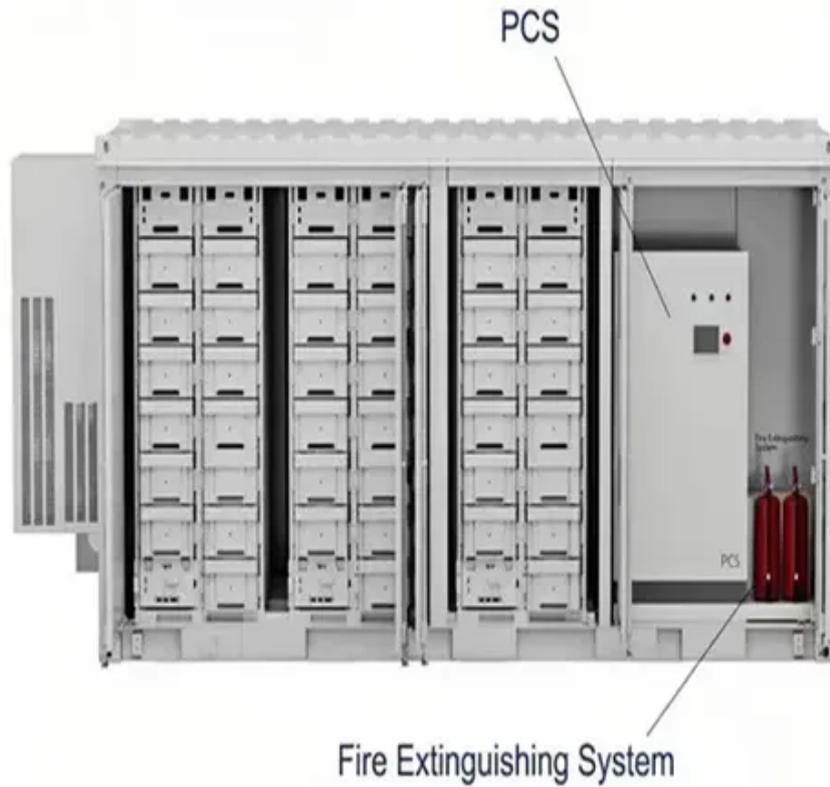

Photovoltaic system bracket waterproof

Overview

Our weldable solar mount provides a secure, fully waterproof attachment for photovoltaic panels on TPO and PVC roofs. This non-penetrating solution thermally fuses to the membrane, ensuring superior wind uplift resistance and preserving your roof's integrity. Aluminum Alloy: Crafted from high-quality aluminum alloy with an anodized surface, these solar panel mounting brackets offer exceptional strength and wear resistance, ensuring long-term reliability. With wind load up to 130mph and snow load up to 30psf, it ensures resilience and longevity with a 10-year warranty. Trusted by global manufacturers across 80+ countries. At Roof Tech, we've been redefining solar mounting solutions since 1994. It adds an insulation layer and a long-life TPO/PVC material layer on top of the structural layer.
