

# Power Construction purchases solar inverters

## Overview

---

These systems transform solar installations from passive infrastructure into active building management tools that optimize energy consumption patterns. New York State is making solar energy more accessible to homes, businesses, and communities through NY-Sun incentives and a network of qualified installers. Combined with declining equipment costs, New York State tax credits, and Inflation Reduction Act tax credits for commercial solar, going solar. Construction Portable Inverter Generator Industry Report 2025: Market to Surpass \$750 Million by 2030 with Aggreko, A-iPower, Bluetti, Briggs & Stratton, Caterpillar Leading Oops, something went wrong Skip to navigation Skip to main content Skip to right column News Today's news US Politics 2025. A Solar Power Purchase Agreement (SPPA) is a financial arrangement in which a third-party developer owns, operates, and maintains the photovoltaic (PV) system, and a host customer agrees to site the system on its property and purchases the system's electric output from the solar services provider. ELBA, NY, May 14, 2025 - Greenbacker Renewable Energy Company LLC ("Greenbacker"), an energy transition-focused investment manager and independent power producer, today announced the start of major construction activities on its Cider Solar Farm ("Cider") in Genesee County, New York. Cider, which. The passage of the Inflation Reduction Act (IRA) supports the growth of US renewables at an unprecedented pace. Solar, storage, and onshore wind capacity could reach more than 1,240 gigawatts (GW) over the next decade, growing 2.7 times faster than projected before the IRA took effect (Exhibit 1).
