## Overview

---

Powerscaling refers to determining a character's power by comparing them to other characters in their series. The logic behind powerscaling works much like that of transitive relation: if  $A > B$  and  $B > C$ , then  $A > C$ . The following is a comprehensive overview of the hierarchical system the VS Battles Wiki utilizes to properly categorize and index fictional characters, entities, and objects based on the scale of their feats and the varying scopes that they can affect or create/destroy. Though Destructive Capacity. This will be able power scale any character or oc.
