

# Previously installed photovoltaic panels

## Overview

---

A used solar panel is a photovoltaic (PV) panel that has been previously installed on a solar array system and removed for resale or reuse. Refurbished solar panels cost slightly more than used solar panels and may come with a refurbished warranty. 5%. If you invest in renewable energy for your home such as solar, wind, geothermal, fuel cells or battery storage technology, you may qualify for an annual residential clean energy tax credit. Some or all of the mortgage lenders featured on our site are advertising partners of NerdWallet, but this does not influence our evaluations, lender star ratings or the order in.
