

# Price list of photovoltaic single silicon panels

PUSUNG-R (Fit for 19 inch cabinet)

## Overview

---

Today's premium monocrystalline solar panels typically cost between 30 and 50 cents per Watt, putting the price of a single 400-watt solar panel between \$120 to \$200, depending on how you buy it. Shop a selection of flexible, rigid, diy, solar cells and solar panels for your home project or new invention. 5 kW system, but prices can vary from as little as \$7,700 for smaller solar systems to upward of \$34,700 for larger systems. To find the most up-to-date solar panel costs in 2025, we compared research from the U. Department of. Note: Costs are expressed in constant 2024 US\$ per watt. Global estimates are used before 2010; European market benchmarks thereafter due to limited data availability. Solar photovoltaic module prices refer to the cost of the solar panel itself, and do not include installation or other system. Polysilicon A small number of new polysilicon orders have recently been concluded at lower price levels, mainly involving mid-tier producers. Market demand influences pricing significantly, as higher demand can lead to increased prices.
