Generally, used 20?

containers start around \$1,500, with newer "one-trip" models ranging from \$2,500  
to \$4,000. Fuel costs, route. Whether you're a solar startup importing your first bulk  
order from Shenzhen or a do-it-yourselfer outfitting a container home in the  
Arizona desert, the cost of shipping solar panels in a container is more than just a  
line item — it can make or break your project budget. These solar energy products  
can be large and bulky, making them challenging to transport without the proper  
packaging and logistics. How many containers do you need?
