## Overview

---

This article will walk property owners through the process of solar rooftop leasing and discuss how to navigate the risks and liabilities associated with these projects. While this allows building owners to facilitate the generation of renewable energy — and additional income — on-site at a property, various legal, financial and operational issues must be addressed upfront to ensure the long-term viability of each rooftop solar project. This article will walk. NREL researcher Jordan Macknick works with teams from University of Massachusetts (UMass) Clean Energy Extension and Hyperion on a photovoltaic dual-use research project at the UMass Crop Animal Research and Education Center in South Deerfield, MA.
