

Skopje energy independence

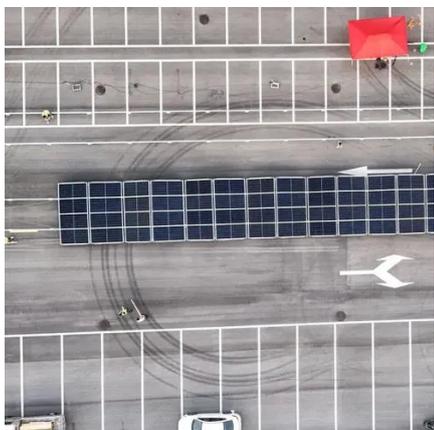

Overview

A key component of this agenda is the government ' s commitment to energy connectivity and renewable energy, as well as the achievement of energy independence. The 14th International Forum for Sustainable Energy (IFESD-14) which in the past three days has transformed Skopje into a global center of energy dialogue, ideas and visions for the future closed with the signing of the “Skopje Declaration”. The representatives of the United Nations and the five. The investor company AKUO took care not to harm the farmers and gave up 160 hectares of land, and negotiations are underway for another 10 hectares of fertile land, which is not private, but is used by farmers from that area. Southeast of Skopje, machines bustle as the largest wind farm in the Western Balkans takes shape. Spanning nearly 326 hectares, the 400 MW.
